## NEWSLETTER FEBRUARY 1, 2018

### Our Mission

*Sure Growth Technologies Inc. is a group of professional consultants dedicated to helping growers utilize scarce resources by implementing the best agronomy, precision farming, data management, and strategic farm planning.*

### Our Vision

*Our unique ability to help top producers leverage innovation, technology, and alternative crops to increase profitability. We have the most experience at understanding the challenges that progressive growers deal with every day. We strive to implement strategic coaching to simplify and minimize input while maximizing output. We take pride in helping our clients build sustainable farm legacies.*

## SAVE THE DATE!

## **Current Updates!**

### **Suregrowth Technologies and AGRI-TREND are hosting events near you!**

Join us at our Moosomin or Yorkton Event at the end of March! We have planned two great session pack full of information! We will be discussing Sustainable Fertilizer Solutions, The latest updates in Precision Farming, Precision Weather Data, Soil Moisture Level Monitoring, Zone Management and Creation, Herbicide Resistance and Clubroot and how they affect your farm, Updates about the World Ag Tech Summit, and more! You won't want to miss it!

We also want to hear from you! What kind of topics do you want at this event when you attend!

The agenda is not final at this time as we are still confirming and adding speakers.

We are hosting two separate days in two separate locations, so we hope you can make it!

If there is anyone you know, that you think would be interested in attending, please extend the invite to them as well!

**Moosomin - March 28th, 2018**

**Yorkton - March 29th, 2018**

- Yorkton - Suregrowth AGRI-TREND Event | March 29th, 2018 | Gallagher Centre Yorkton, SK

## Crop Planning for 2018

The Suregrowth team has been working on crop planning for 2018! It is important that we work together as a team to ensure success for the 2018 growing season.

It is important for us to know:

- 2017 Yields
- 2018 Plans for each field
- Fertilizer Input Prices
- Fertilizer Type
- Fertilizer Placement/Method
- etc.

Anything that is important to your operation for 2018, we would like to know. We want to help you get the best outcome from your 2018 season, no matter your goals and ambitions!

## Tribble Ag Software Feature

Enjoy everything you need, all in one place! TAS works where ever you work! On your computer in your office, or in the field, in the palm of your hand on your phone! Track every detail of your operation, from crop planning and field record keeping, to precision ag mapping and tools. In the field, our TAS mobile app continues to work even if you loose WiFi or cellular signal, so you can always depend on it. Access crop scouting, pre-harvest intervals, and field details and history.
